Education

University of the Philippines Diliman

BS Electronics Engineering, GWA: 1.4586

Quezon City

2020–2025

- Graduated with Cum Laude standing.
- Consistent honor student (College Scholar and Dean's Lister)
- Recipient of the DOST-SEI Scholarship (2020-2024).

Philippine Science High School - Cagayan Valley Campus

High School – STEM Strand

Bayombong, Nueva Vizcaya

2014–2020

- Graduated with honors from the globally competitive 6-year curriculum which includes the 2-year senior high school program under the Physics Strand.

Experience

Google Developer Students Club

Skills Advancement Intern

Quezon City

2020–2021

- Learned HTML, CSS, and JavaScript fundamentals and how to create websites.

Philippine Nuclear Research Institute

Intern

Quezon City

2018

- Learned nuclear physics fundamentals and nuclear reactor operation.

Projects

[A Web-Based Testbed with Spatial Visualization Capabilities for IoT-Based Smart Systems](#)

2025

Device Implementation and REST API Testing Head

- A REST API with an accompanying web app that interacts with and displays data collected by multiple smart devices.
- Handled the integration of six unique smart devices using Python, MQTT, Zigbee, ESPHome, and Home Assistant.
- Conducted performance tests on the REST API using Python (for latency), Apache JMeter (for scalability), and RESTTest (for reliability). The tests showed that the API had low latency (<500ms) endpoints, was scalable up to 200 users, and had robust error handling.
- Technologies: Node.js, PostgreSQL, Python, EMQx, Zigbee2MQTT, ESPHome, Home Assistant, Portainer, Docker

Skills

Programming: HTML

• CSS • JavaScript • C++

• C# • Python • SQL

Simulation Software:

MATLAB • Simulink •

LTSpice

Testing Software:

Postman • Apache

JMeter

Document Editors:

Microsoft Office Suite •

Google Workspace

Languages:

English – Proficient

Filipino – Native
